

# SAAD QUADRI

Seattle, WA · saadquad@gmail.com · (732) 476-8719 · github.com/saadq

## EXPERIENCE

---

### Amazon

*Front End Engineer II*

Seattle, WA  
Jun 2019 - Present

- Launched a new product manuals experience on Amazon's detail page, increasing CTR by 50%.
- Built a new Amazon Search experience to allow users to ask questions from the search bar.
- Developed a service used across several teams for dynamic form generation via JSON schemas.
- Designed and engineered a new application for new Amazon hires to submit their personal info.

### Investroo Inc.

*Software Engineer*

Remote  
Sep 2018 - Jun 2019

- Launched the first version of the "Zoya" stock screening mobile app for iOS and Android.
- Developed the custom design system used across the different screens in the Zoya app.

### Rackspace

*Software Developer Intern*

Blacksburg, VA  
Jun 2018 - Aug 2018

- Implemented a new admin page for prod ops that vastly simplified Rackspace customer support.
- Wrote new API endpoints to allow AWS permissions to map seamlessly with Rackspace Identity.

### Mozilla

*Software Engineer Intern*

Mountain View, CA  
Jun 2016 - Aug 2016

- Revamped Firefox's password suggestions menu by adding support for websites with subdomains.
- Fixed regressions for Firefox Electrolysis and improved dialogs and notification popups.

### Codecademy

*Content Creator & Coding Advisor*

Remote  
Dec 2015 - May 2016

- Mentored cohorts of 200 students at a time as a solo instructor for JS/React projects.
- Created JavaScript projects for Codecademy Pro members as a part of a new JS course.

### IEEE

*Application Developer Intern*

Piscataway, NJ  
Jun 2015 - Nov 2015

- Created new UIs and authored API endpoints for the IEEE Innovate site admins.
- Wrote endpoints that allowed operations to be used for managing data involving teams at IEEE.

### Johnson & Johnson

*Web Developer Intern*

New Brunswick, NJ  
Jan 2015 - Jun 2015

- Developed SharePoint front-ends as the sole dev and used jQuery UI to create responsive widgets.
- Refined existing dev workflows with version control and well-written documentation.
